CAREER OBJECTIVE

Aspiring Full-Stack Developer with hands-on experience in modern web technologies, Next.js, and application development. Skilled in building responsive, scalable, and user-centric web applications with a strong eye for design and clean code practices. Eager to contribute to real-world projects and grow within an innovative, fast-paced tech environment.

SKILLS

Frontend: JavaScript (ES6)| TypeScript | Next.js | React.js | Tailwind CSS | HTML5 | CSS3

Backend : Node.js | Express.js | REST API | JWT (Json Web Token)

Database: MongoDB | MongoDB Atlas

Tools & Technology: Git & GitHub, VS Code, Netlify, Vercel

Soft Skills: Teamwork, Communication, Problem-Solving, Time Management, Adaptability

PROJECTS

Blood Bridge Donation Network

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

Description: A scalable healthcare platform designed to streamline emergency blood donation, featuring robust session-based security and real-time coordination for life-saving support.

Technologies: Next.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, Better Auth, Gemini AI.

Features:

- **Real-Time Emergency Workflow** : Streamlined blood requests, enabling instant donor responses and significantly reducing turnaround time for critical supplies.
- **Role-Based Security & Governance** : Implemented a secure admin dashboard with real-time moderation to manage user roles, account statuses, and community safety.
- **Data-Driven Donor Dashboard** : Designed personalized donor tracking and engagement insights to improve user retention through activity transparency.

Nexora – Online Shopping Platform

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

Description: Engineered a production-ready full-stack e-commerce platform enabling secure user authentication, dynamic product discovery, and seamless cart management, built on a scalable Next.js and Express.js architecture to support fast, reliable shopping experiences.

Technologies: Next.js, TypeScript ,Tailwind CSS, Express.js , MongoDB , Better Auth

Key Features:

- **Optimized Product Discovery:** Built product search, filtering, sorting, and pagination to improve browsing and help users quickly find relevant products.
- **Secure Authentication:** Integrated Better Auth with MongoDB-backed session tokens for secure authentication, persistent sessions, and protected routes.
- **Shopping Cart System:** Implemented a dynamic cart with add, update, and remove functionality for a seamless shopping experience.

EDUCATION & CERTIFICATION

Bachelor of Science (B.Sc.) in Mathematics | 2023 - 2027

National University | CGPA : 3.25

AI-Driven Web Development (Batch 13)

Programming Hero | Online
